

As an over the road truck driver I find XM radio an invaluable service with its wide range of programming and its traffic and weather channels. Reception is clear in all parts of the U.S. and Canada and provides variety and quality that is not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I'm permitted to hear. This is a question of consumer choice and the freedoms protected by the First Amendment. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve. Washington needs to spend its time worrying about real issues and not trying to appease a special interest group.
